Summary

Full-Stack Web Developer and 2025 ECE graduate with **production-ready** experience in **React.js**, **Node.js**, **Express.js**, and **RESTful APIs**. Delivered measurable impact during internship — **30% page load reduction** and **25% engagement increase** — through responsive UI engineering, **SEO optimization**, and backend integration. Built **3 live full-stack applications** from scratch covering real-time APIs, animation-driven UX, and end-to-end deployment on **Vercel**. **HackerRank certified** across 6 domains. Seeking a software engineering role at a product-focused organization. Open to relocat **PAN India**

Education

Year	Degree	Institution	Score
2025	B.Tech — Electronics & Communication Engg.	Rewa Engineering College (REC)	CGPA: 6.8
2021	Class 12 th (CBSE)	Kendriya Vidyalaya Khandwa	71.00%
2019	Class 10 th (CBSE)	Kendriya Vidyalaya Khandwa	70.00%

Work Experience

Web Developer Intern — Fource Guru Pvt. Ltd., Indore Jul 2024 – Aug 2024

- Engineered responsive, mobile-first web applications using **HTML5**, **CSS3**, **JavaScript**, **Bootstrap**, and backend API integration, increasing user engagement by **25%** through modern **UI/UX design patterns**.
- Implemented **SEO best practices** and **asset optimization** strategies, reducing page load times by **30%** and improving organic search rankings across all client-facing pages.
- Collaborated in **Agile sprint cycles** across 5+ projects, working closely with UI/UX designers and backend developers to deliver **production-ready features** on schedule.
- Maintained clean, well-documented codebases using **Git/GitHub**; conducted **peer code reviews** to enforce consistency and reduce regression bugs.

Projects

NexGen Self-Drive — Car Rental Platform *React.js · Tailwind CSS · Node.js · Express · MongoDB · Vercel* [🔗 Code](#) [🔗 Live](#) Jan 2026

- Built a **full-stack** car rental platform with **React** frontend and **Node.js/Express** backend (**MongoDB**), featuring dark-theme responsive UI, interactive vehicle catalogue, and a 3-step booking flow — achieving **sub-2s load time**.
- Integrated **WhatsApp Business API** for real-time inquiries and secure backend endpoints; implemented **lazy loading** and **code splitting**, boosting Lighthouse performance score by **35%**.

Shree Bhargava & Associate — Architecture Portfolio *React.js · Framer Motion · Tailwind CSS · Vercel* [🔗 Code](#) [🔗 Live](#) Feb 2026

- Built a luxury portfolio site enabling direct **client lead generation**; delivered immersive page-transition experience using **Framer Motion** animation state machines.
- Designed a filterable gallery with a **95+ Lighthouse accessibility score**, fully responsive from 320px to 4K.

AtmosSphere — Real-Time Weather Dashboard *React.js · OpenWeatherMap API · Tailwind CSS · Vercel* [🔗 Code](#) [🔗 Live](#) Mar 2026

- Engineered a live weather dashboard with **geolocation metrics**; managed **50+ concurrent API states** using debounced search, **error boundaries**, and skeleton UI.
- Applied glassmorphic design with **dynamic theming** adapting to real-time weather — producing a context-aware experience.

Technical Skills

Languages	Python, JavaScript (ES6+), SQL, HTML5, CSS3
Frontend	React.js, Tailwind CSS, Framer Motion, Bootstrap
Backend	Node.js, Express.js, Flask, RESTful API Design
Databases	MongoDB, MySQL
Tools	Git, GitHub, Docker, Vercel, Postman, VS Code
CS Fundamentals	DSA, OOP, Operating Systems, DBMS, MVC, Agile/Scrum

Certifications & Achievements

- HackerRank Certified** in **Python**, **JavaScript**, **SQL (Advanced)**, **CSS**, **React.js**, and **Node.js**.
- Generative AI for Web Developers** — LLM API integration, prompt engineering.
- Full-Stack Development** — **MERN stack**, REST API design, authentication, cloud deployment.
- Problem Solving** — **100+ DSA problems** (LeetCode & HackerRank): Arrays, Trees, Graphs, DP.
- 3 live production deployments** on Vercel — end-to-end ownership.
